## frankly from frances

Dear Vickie & Jim,

We were pleased & surprised to hear from you from Seattle. It seemed such a brief time that you were here but so very good. You both looked so happy as though you were enjoying life and each other.

This summer has flown by but has been a pleasant one.

The corn came & went in about a week, but we enjoyed it while it was here.

When they start cutting they go right through.

I froze 30 pt. It will taste good this winter.

Well was here for about a week and  
<sup>(the year)</sup> it was a real treat for her. Willie and Ois  
came down for a feed too and took a sack  
home to freeze. Of course Treats have  
corn right next to us which should be  
ripe this week so we will have some more  
to eat.

Your folks & Louise & family went to Detroit  
Dam for the week-end and suppose they all  
had a good time. I'm sure you will hear  
all about it. Jim's youngest son was here  
to go with them.

Jerry leaves tomorrow so I'm glad  
they could all have this time together.  
Time goes and things change so we  
must make the most of each  
opportunity and enjoy each day "The  
Lord" gives. We haven't seen much  
of Jerry but know he has been busy.

I hope you haven't been as lonesome  
as Sara (I know you haven't.) Poor child  
wants to go back to Long Beach and she  
can get her job back so that makes it  
harder.

for Brian wants to go to school  
in Portland.

Now that there isn't so much  
garden work, we hope to take  
a couple of little trips. Of  
course there are pears and  
tomatoes to can but we  
can do them in between.

We have been doing a  
little refurbishing on the  
church floor and roof and  
are getting carpeting for the  
main auditorium (Imagine  
that!) I think it will look  
real nice.

I have run down so must  
close.

Much love,  
Frances &  
grandpa
